Subject:-

Water Supply - Cowl Bazaar - Extension Scheme.

MEMORANDUM No:- 32172 - 2 E, Bhd) 10.30

The C.M.C., Bellary is informed that in view of the present financial stringency Government are unabl to consider applications from local bodies for loans in connection with the C.B.E for 1931-32 except in respect of schemes which are actually in hand and which cannot economically be postponed. There is no possibility therefore of that the loan of Rs.4,500 applied for in respect of the extension of the water supply to the Cowl Bazaar at Bellary will be considered at present.

2. Government, however, consider that it should be possible for the Municipal Council to find the sum involved from its own funds, as its balance in the Water and Drainage Fund at the end of the current year is expected to amount to Rs.57,030. The Chairman is accordingly requested to report before 20-10-1930 whether the Council would be prepared to find the amount from its own funds.

2. As regards the Cowl Bazaar extension scheme the cost is reported to amount to Rs 9000 only. ~~Thus~~ In this connection attention is invited to G.O Nº 1640 Pltt. d 5-7-30 in which the Chairman was informed that the question of providing funds will be considered in connection with the C.B.E. for 1931-32. On the usual basis the Council will be eligible only to a half grant viz Rs 4,500. The other half may be given as a loan repayable in

The Cl need not borrow this small sum as its closing balance in the W+D fund at the End of the current year will amount to Rs 57030 (exclusive of a sum of Rs 35000 permitted to be drawn by Govt to be directed to be invested). If it borrows a sum of Rs 4500, the ~~sum~~ opening will amount to Rs 3824, while the surplus in the W+D fund according to the Ct year's budget is only Rs 310. Please see my U.O.No. 4936, dated 19th Sept. 30 with regard to the extension to Fort and Cantonment areas. As the amount of the estimate for extension in Cowl Bazaar is small, provision may, if possible, be made for this work in the Budget as it is specially needed for the better distribution of supply in this area occupied by the poorer classes.
